Objective

BTech student with hands-on experience in web development and DevOps. Successfully led end-to-end development of technical projects and contributed to community-driven tech initiatives. Committed to continuous learning and effective team collaboration.

Education

JECRC Foundation, BTech in Information Technology   Sept 2022 – May 2026
- Accumulative GPA: 7.64

Matrix High School, Senior Secondary   May 2021
- Percentage: 96.80

Poonia Public School, Secondary Education   May 2019
- Percentage: 92.33

Technologies and Skills

Languages: C++, C, JavaScript, SQL, HTML, CSS
Tools & Technologies: Git, Github, AWS, Docker, Jenkins, MongoDB, Figma, Illustrator
Course Work: Data Structures and Algorithms(DSA), Object-Oriented Programming, DBMS
Soft Skills: Problem Solving, Time Management, Leadership, Team Work

Training and Internship

- **JECRC Central Library** – Jaipur, India   01 May 2025 – Present
  Architected and led the full-stack development of a high-performance, secure web platform for an international conference, ensuring seamless deployment, cross-device compatibility, and enhanced user engagement.
- **Upflairs Pvt Ltd.** – Jaipur, India   1 July – 17 Aug 2024
  Completed an intensive 45-day training program focused on Cloud and DevOps principles; Gained hands-on experience with Linux, Docker, Jenkins, Kubernetes, and AWS by deploying and managing sample applications.

Volunteering and Leadership

- **Spiritual Research Center**
  Directed the end-to-end full-stack development of a multi-page, mobile-responsive website for the "Gamathon" event, enhancing user engagement and supporting real-time registration workflows.
- **Zarurat**
  Volunteered as an teacher at Zarurat, delivering structured academic support, life skills training, and personalized mentoring to underprivileged children. Spearheaded the design and execution of digital marketing strategies for the annual fest, including graphic design, content creation, and targeted social media campaigns, resulting in increased community engagement and event participation.
- **JECRC Incubation Center**
  Produced well-researched, high-quality articles and curated relevant content for 'Magnate,' ensuring accuracy, engagement, and alignment with the audience interests.

Projects

- **Nexio:**
  Developed a scalable B2B e-commerce platform enabling NGOs across India to efficiently lend and share resources and enhancing collaboration.
  Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, RESTful APIs.
- **Voting App**
  Led DevOps for Voting App, automating CI/CD pipelines and managing Kubernetes-based container orchestration to ensure scalable, secure, and high-availability infrastructure.
  Utilized Docker, Jenkins, Ansible and AWS to optimize deployment efficiency, monitoring, and system reliability. Tools used: Git, Docker, Jenkins, Ansible, AWS

Certification

- **Deloitte Australia Technology Job Simulation on Forage - June 2025**
  Completed a job simulation involving development and coding
